

QUALITY CONNECTIONS

Join Us for the Section's Annual Recognition Night

Our **Annual Recognition Night** is the Section's opportunity to recognize those individuals and organizations that have advanced QUALITY in the Southern Jersey Region during the past year. It represents one of the highlights of our program year.

Those individuals listed below have received a new ASQ Certification during the past twelve months and are invited to attend as the Section's Guest with no cost.

David Belisky

Certified Quality Auditor

Tamweer Iman

**Certified Quality Engineer and
Six Sigma Black Belt**

Marimena Raez

Certified Quality Process Analyst

Jeffrey Hudson

**Certified Manager of Quality/
Organizational Excellence**

David Cranston

**Certified Manager of Quality/
Organizational Excellence**

WELCOME TO OUR NEW MEMBERS

The following new ASQ members have joined the Southern Jersey Section. As part of our Section's policy, the Executive Board would like to invite these new members to join us at the October Section Meeting. You'll have an opportunity to network with your colleagues – and your Dinner is **FREE**.

Chris Castor

Alexis Azan

TOPIC: **NextGen and V&V**

John will talk about the Joint Program Development Office (JPDO) consisting of DOT, FAA, NASA, DHS, DOD, and DOC that was established to collectively support development of the Next Generation Air Transportation System (NextGen) with one mission in mind, redesigning of the NAS. The NextGen key capabilities must meet the existing systems capabilities plus handle the anticipated voluminous increase in air travel in the next ten years and beyond. The NextGen will move people and goods expeditiously from curb-to-curb safety.

He will address the new FAA Verification & Validation strategy focused on the complete life cycle of FAA systems. He will touch on the efforts to strengthening V&V processes with a focus on problem prevention, detection and resolution as early in the life cycle as possible. To refine the new integrated procedural test practices and explore new theory of V&V for highly flexible and complex system of systems, the FAA has joined with academia, industry, and other government agencies.

SPEAKER: **John Wiley**

John Wiley is the Manager of the Technical Strategies and Integration organization at the Federal Aviation Administration's William J. Hughes Technical Center. John is responsible for the governance, integration, transition, and strategic management of the Technical Center's products, services, and initiatives. The Technical Center is one of the world's leading engineering, research, development, and testing facilities for nearly every aspect of air transportation systems.

John has over 30 years of technical expertise in the aviation industry, 21 of those years in management. John is a member of the International Test and Evaluation Association (ITEA) Executive Board and is also a member of the Rowan University Electrical and Computer Engineering Industrial Advisory Board. He is an active member of the Air Traffic Control Association, former president of the ITEA South Jersey chapter, and former member of the Human Factors Society of South Jersey. He holds a bachelor's degree in electrical engineering from Drexel University, and has completed graduate courses in artificial intelligence, management, strategic planning, and project management.
